

# COVERED BRIDGE AT JONES CREEK

Anderson County, South Carolina

SeamonWhiteside + Associates contracted with Apex Development (Covered Bridge at Jones Creek, LLC) to master plan and provide landscape architectural services for the 220-acre site located in Anderson County, SC.

The existing house site planning and landscape architecture was designed by Robert Marvin and Associates. The site includes 60-acres of preserved wetland, homesites sensitively placed to take advantage of natural features and views, a covered bridge crossing Jones Creek, existing duck and beaver ponds with boardwalks, pavilions and lookout tower, creekside trails part of extensive path/multi-purpose trail system, meadows, lodge area and pool/lazy river design. The project is, in part, a Traditional Neighborhood Development and as well as a conservation community, primitive camping sites, and education components to celebrate history of site and educate about natural systems.
